Your Total Shading Solution

Durasol SunStructure Total Shading Solutions

Custom-crafted beauty and cool comfort combine for your outdoor enjoyment in the Durasol SunStructure Series.

Durasol's **SunStructure** family is made up of unique products designed for both residential and commercial settings including two recently introduced awning innovations... the Genius and Gallery. The Genius and Gallery provide a fully protected, waterproof seating and/or living environment during inclement weather, yet can be fully retracted with a push of a button when no protection from the elements is necessary.

Self-supporting and low maintenance, the **SunStructure** models are ideal for locations that require unusual shading and/or waterproof solutions. Create a lasting impression and a cool, relaxed mood.

SUPERIOR SOLAR PROTECTION

Your Durasol SunStructure unit provides a high level of UV protection, allowing everyone to stay outdoors longer without concern of the harmful effects of the sun. As an added benefit, your Durasol awning will also prevent fading of carpet and furniture. You'll enjoy worry-free, outdoor living and experience elegant, on-demand solar protection with easy, push-button convenience.

The **Gennius** is a unique concept in retractable awning systems. The **Gennius** can stand up to the wind, protect you from the rain or harmful UV sun-rays and keep you cool and comfortable in the brightest sunshine. It combines the beauty of a pergola, the flexibility of a retractable awning and the warmth and comfort of a room addition. The **Gennius** has the versatility of covering a small deck, a large patio, or an expansive pavilion.

- Rainproof retractable roof system
- Integrated and optional rainwater management features
- 3-Ply PVC fabric blocks 100% of UV light, eliminates shadow lines of droppings and debris
- Width dimensions up to 42'7" in a single unit, virtually unlimited with multiple units
- Projection dimensions up to 21'4", and beyond
- Remote control options
- Optional zip screens or zip curtains with clear vinyl windows
- Integrated lighting and audio systems available

SPECIFICATIONS*

Operation	Motorized
Warranty	Limited Lifetime

**Subject to change without prior notice*

A beautiful, self-supporting canopy system, offers consumers the luxury of added living or dining space, with the option of retracting the fabric for more openness and to enjoy the sunshine. The **Gallery** is capable of covering expansive areas, and is perfect for restaurants, bars, and cafes; increasing revenue with added table space, wedding and event facilities, shops and other businesses.

- Fixed or retractable systems
- Arched, peaked or gable roof styles available
- Complete rain-proofing with rainwater management
- Optional drop screens or curtains
- Self-supporting installations
- Great opportunity for signage and graphics
- Hundreds of fabrics and colors
- Complements existing architecture

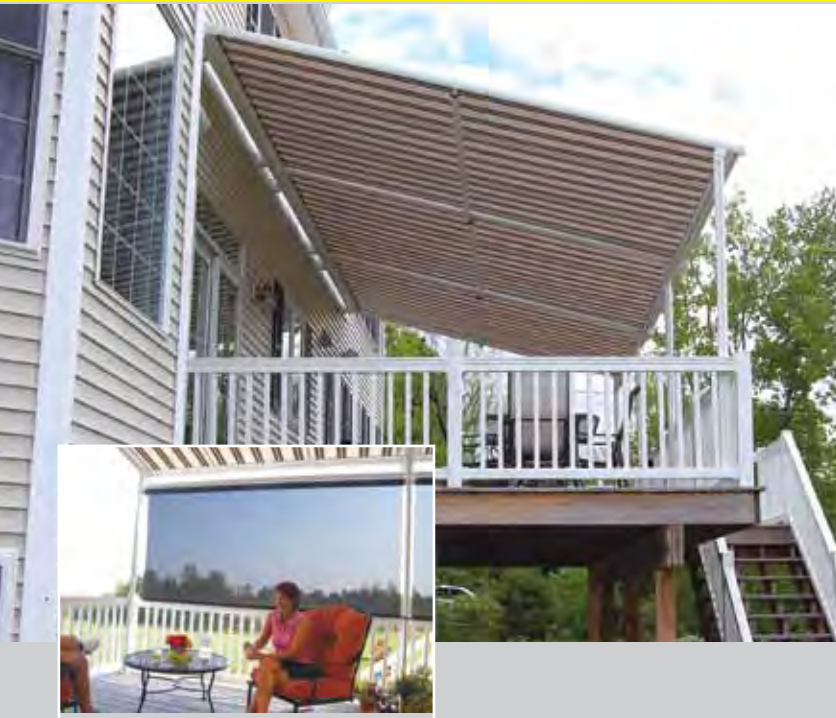

SPECIFICATIONS*

Operation	Motorized
Warranty	5 Years

**Subject to change without prior notice*

Pinnacle One

Primary Application: *Decks, Patios, Pergolas, Sidewalks, and more*

The **Pinnacle One** is a retractable shading system that can be used individually or combined with multiple units. The **Pinnacle One** also features a semi-cassette style housing that incorporates a brush to prevent debris from rolling up with the fabric into the unit.

SPECIFICATIONS*

Unit Width Range	3'-16' (Two or three units can be coupled)
Unit Projection	3'-13' (3'-16' with acrylic)
Mounting	Wall or Roof
Frame Color	White, Brown, Ivory, Sand
Operation	Motorized
Framework Warranty	5 Years

- Powder coated aluminum components are corrosion resistant
- Minimal mounting footprint required
- Tension driven pulley system ensures taut fabric coverage
- Single, double, or triple units are available
- Optional drop down screens available

Pinnacle Two

Primary Application: *Pergolas, Skylights, or Glass Roofs*

The **Pinnacle Two** includes the same engineering features of the Pinnacle One without the front legs, for easy mounting to an existing structure.

SPECIFICATIONS*

Unit Width Range	3'-16' (Two or three units can be coupled)
Unit Projection	3'-13' (3'-16' with acrylic)
Mounting	Roof or on Top of Any Existing Structure
Frame Color	White, Brown, Ivory, Sand
Operation	Motorized
Framework Warranty	5 Years

- Specially designed self-cleaning debris brush
- Two different mounting brackets cover all applications
- Semi-cassette housing provides full fabric protection when retracted
- Single or double units are available

The **Tempo** is a self supporting stand designed to be used where typical mounting structure locations are not available.

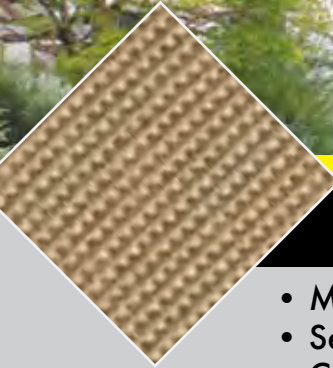

- No traditional mounting surface needed
- Free standing unit, supports double sided retractable awning
- Shades up to 360 square feet of space
- Heavy duty powder coated steel frame
- **Model options:** Bella, Elite Plus, Regal, Triumph, or Carina

SPECIFICATIONS*

Unit Width Range	11'-24' (2' increments) Third leg required on units over 18'
Unit Projection	10'2" (x2) max
Height	Maximum 10'
Model Options	Bella, Elite Plus, Regal, Triumph, or Carina
Mounting	Steel base plates
Frame Color	Charcoal
Warranty	5 Years

**Subject to change without prior notice*

Premium-Grade Fabric

- Made with 100% solution-dyed acrylic fabric to resist fading
- Sewn with Gore™ Tenara® for superior, long-lasting UV protection
- Colorfast: colors stay bright, resist the elements and moisture
- HUNDREDS OF FABRICS: choose from solids, tailored stripes or distinctive patterns
- Won't harden, crack, or peel - for years of enjoyment and beauty

Motors & Electronics

Durasol incorporates state-of-the-art UL listed and CE approved motors and electronics from Somfy, the industry leader, as well as American Heritage™. Durasol offers a 5 year warranty on all motors and electronics. Your Durasol dealer will work with you to design a shading solution that allows for a one touch wireless control to fully automated functionality.

Wireless Sun Sensor

Wireless Wall Switch

Somfy Infrared Heater

Go Green on Energy Cost!

Go Green and Reduce Energy Cost

Durasol retractable awnings effectively filter the sun's light creating a cool and relaxed environment. Solar heat gain is greatly reduced by limiting the amount of direct sunlight that enters a window or door.

The use of fabric awnings will reduce solar heat by up to 90%* and lower indoor temperatures by 10-15%, thus saving 25%* on air conditioning costs throughout the warmer months. *Source: 2007 PAMA
