DESIGNING YOUR HOME

Finding ways to reflect your style, your taste and your way of living is truly what turns a house into your very own home. Little details, like the way a well-crafted door feels when it opens and closes, create a sense of well-being in subtle but important ways.

We recognize the importance you place in keeping your home beautiful, and above all - worry free. JELD-WEN® materials and craftsmanship represent enduring quality: solid, familiar, just the way you like it. What's more, JELD-WEN offers you the very best selection, and backs it with a five-year limited warranty.

HOW TO ORDER AN INTERIOR DOOR

1. CHOOSE YOUR DOOR TYPE

Pre-Hung

Slab

Bifold

Double

Pocket

WOOD SPECIES

Cherry

Hemlock

Knotty Alder

Knotty Pine

Maple

Oak

Pine

2. CHOOSE YOUR DOOR DESIGN

Choose from a wide range of interior door designs. If the jamb is in good shape, you can simply replace the door slab, eliminating the need to consider the pre-hung door options in Steps 4-7.

Premium Wood French, Louver, Stile and Rail A wide range of architectural designs in 8 solid wood species allow you to match the style and trim in your home.

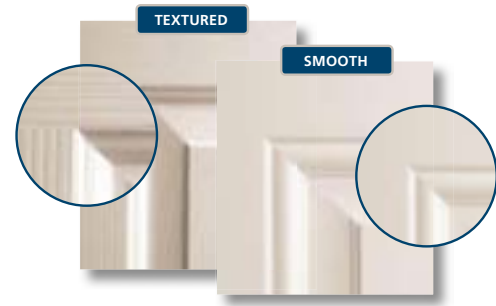

Primed Engineered True stile and rail construction - pre-primed and ready to paint.

Custom Carved Over 100 unique and 9 personalized designs allow you to create a distinct look.

Molded Our 14 molded doors come in smooth and textured finishes. They're available in a selection of core types.

Flush Our flush doors deliver long-lasting performance in a selection of core types. Choose from oak, birch, hardwood and primed.

RELIABILITY for real life®

PROCORE

STILE & RAIL WOOD DOORS

Improve, upgrade and refine with **wood**.

No other door makes an impression that's as inviting as a wood door. Wood brings a sense of warmth and artistry into any home, whether it's elegantly modern or comfortably traditional. In fact, a wood door is not only a gateway between spaces, but also a visually captivating element.

You'll discover all the beauty of wood in the wood doors from JELD-WEN. These interior wood doors are crafted to be reliable for years and they're available in many wood species. Our varied selection lets you choose a look that reflects your style and complements your home.

OG Sticking

There is no one like **You.**

From your fingerprints to your likes and dislikes, you are a one-of-a-kind individual. So shouldn't your home be as unique as you are?

We recognize that no two customers are alike, which is why we craft our JELD-WEN Custom Carved Interior Doors. These reliable doors are designed to reflect your personal tastes. Choose from over 100 standard designs or fashion a door from your own ideas by selecting from a wide range of personalized designs. Whichever door style you choose, you can depend on it to be reliable, secure, and most of all, worry-free.

Unmatched Selection

We're dedicated to providing you with plenty of choices, which include a range of design panel profiles and moulding options. Our Custom Carved Interior Doors are available in heights from 6'8" to 8'0". All doors come conveniently primed and ready to paint.

Sound Reduction

Our Custom Carved Interior Doors have cores that are one third lighter than traditional MDF doors. In addition, all door designs have up to a 33 STC rating, which means they offer some of the best noise reduction of any residential or commercial doors available today.

Available in heights of 80", 84" & 96"

Precisely designed

Any JELD-WEN Custom Carved Interior Door you choose features a pattern that is routed into a single sheet of medium density fiberboard (MDF). The refined MDF we use is carefully buffed for a visually appealing smooth finish. And the design is created with superior router technology that allows for an exceptionally detailed and polished appearance.

Moulding, Sticking & Panels

To get the exact look and feel you desire, JELD-WEN Custom Carved Interior Doors offers moulding, sticking & panel profiles to match any architectural style.

C2020 - Flat Panel Square Sticking

C5000 - Single Hip Panel - OG Sticking

C2050 - Double Hip Panel 110/112 Moulding

C3000 - Single Hip Panel Square Sticking

Available in heights of 80", 84" & 96"

These doors are manufactured using solid MDF sheets, so there is no risk of separation of stiles, rails and panels. Each door is designed to provide some of the best noise reduction of any residential or commercial door while also being 33 percent lighter than most MDF doors.

Quality construction. Dependable Delivery

From the careful selection of raw materials, to the painstaking assembly of each component, JELD-WEN interior flush doors are created to deliver long-lasting, dependable performance. Our wide range of unfinished flush doors are built to fit any interior opening and they're available in a broad selection of core types, including our solid core option. JELD-WEN supports environmental preservation by using millwork by-products when crafting doors—allowing us to maximize use of valuable natural resources.

See Associate for details

Sound Reduction

All our Molded and Flush interior doors are available with ProCore The Quiet Door™ construction. Solid core construction reduces the transmission of noise by up to 50 percent (compared to a hollow door). ProCore doors allow you to mute the chaos of sound, whether it be loud music, late-night television or the roar of the dishwasher. ProCore is ideal for keeping a home office, study or library quiet.

Fire Ratings

ProCore solid core doors not only provide increased noise reduction, they also come in various fire ratings. When it comes to safety, we offer 1-3/4" doors with 20-minute, 45-minute and 60-minute fire ratings. For true fire protection, our 1-3/4" certified doors must be teamed with our certified frames and hardware. Select this combination to get solid safety. Check local codes for requirements in your neighborhood.

BIFOLD DOORS

Complete the look of your home with **matching bifolds**.

Bifold doors are perfect for smaller spaces, such as laundry rooms, closets and other storage areas. With JELD-WEN bifold doors, you'll have long-lasting, reliable performance and style that works effortlessly in your home's interior.
